CERTIFICATE OF COMPLETION

PRR & VS GOVERNMENT COLLEGE

Re-Accredited by NAAC-B
VIDAVALLUR - SPSR NELLORE DISTRICT
ANDHRA PRADESH

This is to certify that Mr / Ms / Mrs.....

has successfully completed a Certificate Course on "Journalism and Mass Communications " organized Department of Telugu from 16/07/2018 to 30/09/2018 at PRR & VS Government College, Vidavalur, SPSR Nellore District, Andhra Pradesh.

Course Duration: 3 Months

Grade:

N. Sridevi

Course - Coordinator

AURAMAN. B

Principal

RRR & VS GOVERNMENT COLLEGE
 VIDAVALUR, SPSR NELLORE DT.

PROPOSAL FOR CERTIFICATE COURSE

IN

ZERO-BUDJET NATURAL FARMING (ZBNF)

The Philanthropic gesture and generous donations of an area of 11.72 acres of land and Rs.2,00,000 in cash of the chief donors Sri. Ponnaluru Ramachandra Reddy and Smt.Venkata Subbamma resulted in the establishment of this Government College at Vidavalur on 8th July,1965 as composite college to cater to the educational needs of boys and girls belonging to the poorest of the poor and the downtrodden sections of the society. It is rightly named after the donors as “**Ponnaluru Ramachandra Reddy and Venkata Subbamma Government College**”. It is located in Vidavalur, a remote rural area in SPSR Nellore district, Andhra Pradesh and affiliated to Vikrama Simhapuri University, Nellore. At present, the institution is accredited with ‘B’ Grade by NAAC, Bangalore on 14th Sept. 2015.

In view of lively rural surroundings and rich diversity in plants and bio- culture, there has been a candid demand for opening of **Department of Botany** in PRR & VS Government College. Hence the Departments of Botany was opened in the college during 1965 and completed 50 years in 2015. It has been enrolled for general stream of B. Sc (BZC) and offering a three years Bachelor of Science Degree. Botany department is one of the major departments in our college. The department is committed to the development of academic excellence in teaching. The department is highly motivated and excited to share both their knowledge and passion in the field of Botany. As an integral part of the undergraduate education, the department carries out extensive field work to ensure that our undergraduate programme is at par with the current requirements in Botany practical field. The Department is providing Departmental library facility with a number of reference books to support the needy students. The department is organising the university level seminars college level seminars, seminars on environmental issues, awareness programmes science exhibitions, research and various social service activities. The department is planning to organize National Conferences and workshops to inculcate research and competition culture among the faculty and students. Keeping pace with the advanced knowledge, the Department updates the curriculum from time to time and has introduced the Choice Based Credit System. The main aim of the Department is to provide

academic, Educational and financial progress in students by providing proper Education, Guidance and Skills.

Since the initiation, the department is organising various educational programmes for familiarizing the students with different plant species in their natural environment. The Department has paved a way for the extension activities and has joined hands with many organizations and is creating a positive impact among the general public. The department is implementing many programmes and is well appreciated by the general public. All the academic and extension programmes of the Department are carried out strictly in accordance with the University regulations and the UGC Guidelines for the Departments of Lifelong Learning and Extension.

As a need of hour, the department is proposing a **certificate course in Zero-Budget Natural Farming** to train our rural student youth in safe agriculture.

SYLLABUS OF THE COURSE

Unit-I : Zero-Budget Natural Farming- Introduction:

It is a method of farming where the cost of growing and harvesting plants is zero. This means that farmers need not purchase fertilizers and pesticides in order to ensure the healthy growth of crops. It is, basically, a natural farming technique that uses biological pesticides instead of chemical-based fertilizers. Farmers use earthworms, cow dung, urine, plants, human excreta and such biological fertilizers for crop protection. It reduces farmers' investment. It also protects the soil from degradation.

Zero Budget Natural Farming as the name suggests, is a type of chemical-free farming where the total cost of growing and harvesting plants comes out to be zero (taking into consideration the costs incurred by the farmers are recovered through inter-cropping). **The topic, 'Zero Budget Natural Farming,' gained prominence when Finance Minister Nirmala Sitharaman mentioned it in her 2019 budget speech, speaking of it as a source of doubling farmers' income.**

Who introduced Zero Budget Natural Farming?

Subash Palekar (Indian Agriculturist and Padma Shri Recipient) is the father of Zero Budget Natural Farming. He developed it in the mid-1990s as an alternative to the [Green Revolution](#) methods.

The points put forward by Subash Palekar in support of Zero Budget Natural Farming are:

1. Lakhs of farmers are using the technique of Zero Budget Natural Farming in different agro-climatic zones and soil types.
2. To grow a plant, whatever is needed is present in nature. No chemicals are required to grow a plant. An example – Earthworm excreta has seven times more nitrogen than the soil.
3. A large number of small farmers are using this technique as they see Zero Budget Natural Farming as a tool that can free them from debts and defaults.
4. It makes farming both profitable and sustainable.

Concerns with Zero Budget Natural Farming

- Government spending is low: In 2018, the government introduced the Rashtriya Krishi Vikas Yojana, a centrepiece programme for the Green Revolution, with an appropriation of Rs 3,745 crore for the fiscal year 2019–20. While just Rs 325 crore was allotted to the Paramparagat Krishi Vikas Yojana, which was created to encourage organic farming and soil health.
- After observing that their ZBNF yields began to decline after a few years, many farmers switched back to conventional farming.
- While ZBNF has unquestionably contributed to maintaining soil fertility, its impact on increasing productivity and farmers' income is still inconclusive.
- The first organic state in India, Sikkim, has noticed some yield declines since switching to organic farming.
- The long-term effect and viability of the ZBNF Model should be properly validated before it is widely pushed across the nation, according to agricultural scientists.
- ZBNF adoption on a large scale could have a negative influence on farmer income and food security. So it is necessary to conduct a proper scientific confirmation of ZBNF's effectiveness.

Unit –II: Benefits of Zero Budget Natural Farming (ZBNF):

- ✦ As both a social and environmental programme, it aims to ensure that farming – particularly smallholder farming – is economically viable by enhancing farm biodiversity and ecosystem services.
- ✦ It reduces farmers' costs through eliminating external inputs and using in-situ resources to rejuvenate soils, whilst simultaneously increasing incomes, and restoring ecosystem health through diverse, multi-layered cropping systems.
- ✦ Cow dung from local cows has proven to be a miraculous cure to revive the fertility and nutrient value of soil. One gram of cow dung is believed to have anywhere between 300 to 500 crore beneficial micro-organisms. These micro-organisms decompose the dried biomass on the soil and convert it into ready-to-use nutrients for plants.
- ✦ Zero budget natural farming requires only 10 per cent water and 10 per cent electricity than what is required under chemical and organic farming. ZBNF may improve the potential of crops to adapt to and be produced for evolving climatic conditions.
- ✦ The major characteristic of the Zero Budget Natural Farming is that the cost of production is zero and farmers do not have to buy any inputs to initiate this method of farming.
- ✦ As it promotes use of Indian local breed of cow for 30 acres of land, it makes it possible for farmer to earn profits earlier than expected
- ✦ Palekar suggested that with Zero Budget Farming One can make an income of ₹6 lakh an acre in irrigated areas and ₹1.5 lakh in non-irrigated areas.
- ✦ As the Zero Budget Natural Farming covers all kinds of agro-climatic areas, it is mentioned to be suitable for all kinds of crops
- ✦ Farmers can get more yields in the first year only giving them a benefit
- ✦ The Zero Budget Farming is also seen to ease out the debt pressure on the farmers as they don't have to take loans to buy any inputs for their farming
- ✦ Farmers are expected to earn more money per acre and the chances of migration from villages to cities can also lessen.

Principles of Zero Budget Natural Farming

Below are key principles of Zero Budget Natural Farming:

- Zero external inputs Crops to cover the soil for 365 days (Living Root). Soil disturbance at a minimum
- Biostimulants as essential catalysts. Utilize native seed for mixed farming. Mixed cropping.
- The incorporation of trees onto the farm.
- Conservation of moisture and water.
- Bring animals into farming.
- More organic debris in the soil.
- Using plant extracts to control pests
- No artificial pesticides, herbicides, or fertilisers

Unit III : The four pillars of ZNBF or Components of Zero Budget Natural Farming

1. Jivamrita/Jeevamrutha: It is a fermented microbial culture. It provides nutrients, but most importantly, acts as a catalytic agent that promotes the activity of microorganisms in the soil, as well as increases earthworm activity; During the 48 hour fermentation process, the aerobic and anaerobic bacteria present in the cow dung and urine multiply as they eat up organic ingredients (like pulse flour). A handful of undisturbed soil is also added to the preparation, as inoculate of native species of microbes and organisms. Jeevamrutha also helps to prevent fungal and bacterial plant diseases.

2. Bijamrita/Beejamrutha: It is a treatment used for seeds, seedlings or any planting material. Bijamrita is effective in protecting young roots from fungus as well as from soil-borne and seedborne diseases that commonly affect plants after the monsoon period. It is composed of similar ingredients as Jeevamrutha - local cow dung, a powerful natural fungicide, and cow urine, a strong anti-bacterial liquid, lime, soil.

3. Acchadana – Mulching: There are three types of mulching: a. Soil Mulch: This protects topsoil during cultivation and does not destroy it by tilling. It promotes aeration and water retention in the soil. b. Straw Mulch: Straw material usually refers to the dried biomass waste of previous crops. c. Live Mulch, the use of symbiotic intercrops and mixed crops.

4. Acchadana – Mulching: There are three types of mulching: a. Soil Mulch: This protects topsoil during cultivation and does not destroy it by tilling. It promotes aeration and water retention in the soil. b. Straw Mulch: Straw material usually refers to the dried biomass waste of previous crops. c. Live Mulch, the use of symbiotic intercrops and mixed crops.

5. Cropping Model of Zero Budget Natural Farming

The approach is based on producing polycultures, or short- and long-term (main crop) crops together, in order to recover the cost of raising the main crops from the income from the short-term crops, resulting in “zero” spending for the main crop. Accordingly, the term “Zero Budget Natural Farming” is used for this farming model.

UNIT IV: Objectives:

- ❖ To Promote agriculture in harmony with Nature
- ❖ To Reduce the cost of cultivation
- ❖ To reducing risks / Reducing Health hazards
- ❖ To Increase yields, both in the short run and the long run
- ❖ To Increase price realizations for farmers
- ❖ To Enhance soil fertility, soil biology continuously
- ❖ To Promote bio diversity
- ❖ To Enhance resilience to climate change
- ❖ To produce Healthy food free from chemical residues for all consumers
- ❖ **To provide Employment opportunity in villages.**
- ❖ To provide knowledge about the premium pricing for chemical free produce, improved soil health, climate change resilience, consumer health
- ❖ To improve the quality and quantity of the production
- ❖ To improve the keeping quality of the produce
- ❖ To promote Sustainable agriculture for the years to come
- ❖ To reduce or to promote zero usage of chemical fertilizers and chemical pesticides in order to protect the human health.
- ❖ To promote the Usage of cow dung, cow urine and plant extracts for improving the soil humus content which improves the soil texture, structure and microbial activity of the soil which directly improves the soil fertility there by increase in production.
- ❖ To provide profitable livelihoods from Agriculture and allied sectors.

Zero Budget Natural Farming and Farmers' Income

- The major characteristic of Zero Budget Natural Farming is that the cost of production is zero and farmers do not have to buy any inputs to initiate this method of farming.
- Against the conventional methods, the Zero Budget Natural Farming used only 10 percent of the water that is used in the former method.
- As it promotes the use of the Indian local breed of the cow for 30 acres of land, it makes it possible for farmers to earn profits earlier than expected.
- Palekar suggested that with Zero Budget Farming One can make an income of ₹6 lakh an acre in irrigated areas and ₹1.5 lakh in non-irrigated areas.
- As the Zero Budget Natural Farming covers all kinds of agro-climatic areas, it is mentioned to be suitable for all kinds of crops
- Farmers can get more yields in the first year only giving them a benefit
- The Zero Budget Farming is also seen to ease out the debt pressure on the farmers as they don't have to take loans to buy any inputs for their farming
- Farmers are expected to earn more money per acre and the chances of migration from villages to cities can also lessen.

Unit-V: States following ZBNF

- **Karnataka:** In every one of the state's ten agroclimatic zones, Karnataka has begun implementing the ZBNF on a pilot basis in an area of 2000 hectares through the relevant State Agriculture/Horticulture Universities as demonstrations/scientific experiments conducted in farmers' fields and in the research facilities of the respective universities.
- **Himachal Pradesh:** Since May 2018, Himachal Pradesh has been implementing the Prakritik Kheti Khusha Kisan programme, which is financed by the state. The results of studies carried out by the state demonstrated that ZBNF practice improved soil quality within a single cropping season and that invasive leaf miner incidence was much lower in the ZBNF system when compared to organic farming as well as conventional farming.
- **Kerala:** In order to pique farmers' interest in ZBNF, awareness campaigns, workshops, and training sessions are being held in Kerala.
- **Andhra Pradesh:** ZBNF was introduced by Andhra Pradesh in September 2015 as part of the Rashtriya Krishi Vikas Yojana. In partnership with the University of Reading, the UK World Agroforestry Centre, Nairobi, FAO, and resource NGOs/Civil Society Organizations such as the Centre for Sustainable Agriculture (CSA), Hyderabad.

Facts about Zero Budget Natural Farming (ZBNF)

A few important details about Zero Budget Natural Farming are given in the table below:

<p>What is the application used in Zero Budget Natural Farming?</p>	<p>‘Jeevamrutha’ is applied in farming. Jeevamrutha is the mixture of:</p> <ul style="list-style-type: none"> • Fresh desi cow dung • Aged desi cow urine • Jaggery • Pulse flour • Water and • Soil
<p>What is the use of Jeevamrutha that is used in Zero Budget Natural Farming?</p>	<p>It helps in the addition of nutrients in the soil and also in catalysing the microbial activities in the soil.</p>
<p>How is Jeevamrutha applied in Zero Budget Natural Farming?</p>	<p>About 200 litres of jeevamrutha is sprayed twice a month per acre of land. After three years, the system is supposed to become self-sustaining</p>
<p>Which quality of cow is needed in Zero Budget Natural Farming?</p>	<p>According to Palekar, a local Indian breed cow is sufficient for 30 acres of land</p>
<p>What is used in place of chemicals in Zero Budget Natural Farming?</p>	<p>A mixture called ‘Bijamrita’ (‘Bija’ stands for seed) is used for the treatment of seeds while another mixture of neem leaves and pulp, tobacco and green chillies is used as an insecticide</p>
<p>What do Acchandana and Whapasa mean?</p>	<p>Acchadana is Mulching, associated with Zero Budget Natural Farming while Whapasa is a condition where there is a presence of both air molecules and water molecules in the soil. Whapasa helps in reducing irrigation requirements.</p>
<p>What are the uses of Zero Budget Natural Farming?</p>	<p>Apart from the least cost incurred in this type of farming, Zero Budget Natural Farming also promotes:</p> <ul style="list-style-type: none"> • Soil aeration • Minimal watering • Intercropping • Bunds and • Topsoil mulching <p>Intensive irrigation and deep ploughing are not promoted in Zero Budget Farming.</p>
<p>Is Vermicomposting used in Zero Budget Natural Farming?</p>	<p>No, Vermicomposting which is a method of using earthworms as a means to enhance organic waste conversion; is not supported in Zero Budget Natural Farming. Palekar mentioned that European Red Wiggler (The most common composting Earthworm) that is used in vermicomposting absorb toxic metal and poisons the soil.</p>
<p>Which is India’s state to roll out a</p>	<p>Andhra Pradesh</p>

plan to become the first state to practice 100 percent natural farming by 2024?

Zero Budget Natural Farming – Criticism

- The concept of Zero Budget Natural Farming is not well-accepted by the scientific community. National Academy of Agricultural Sciences scientists mentioned that India cannot rely on Zero Budget Natural Farming as there is no scientific validation of the techniques used in Zero Budget Farming.
- As against the name suggests, the farming method does bear a minimum input cost
- The maintenance of the local cow breed is difficult as against those that are used currently
- Organic certification of the crops planted by the Zero Budget Natural Farming will face another hurdle and it might lead to a difficulty in selling the products to the organic brands.

Zero Budget Farming – Conclusion

It is a farming method that Prime Minister Narendra Modi mentioned in the United Nations Conference on Desertification (COP-14) while stating that India is focusing on this method. The farming method offers resilient food systems. Through two of their initiatives:

- [Paramparagat Krishi Vikas Yojana \(PKVY\)](#)
- [Rashtriya Krishi Vikas Yojana \(RKVY\)](#)

The Government of India has been promoting organic farming in the country.

“The Vision is that there should be no agriculture distress and achieving improvement in producing livelihoods by reducing the cost of cultivation and moreproduction”

Regulations:

1. CONDITION FOR REGULATIONS:

A candidate who have passed the Higher Secondary Examination (Academic Stream) conducted by the government of Andhra Pradesh or an examination as equivalent to 10, +2 course including CBSE, which have been recognized by the Vikrama Simhapuri University or any other University accepted by the syndicate as equivalent there to subject to such conditions as may be prescribed therefore shall be permitted to appear and qualify for Professional Certificate course ZBNF.

2. DURATION OF THE COURSE:

4 Weeks

3. ELIGIBILITY FOR THE PROFESSIONAL CERTIFICATE:

A candidate shall be eligible for the professional certificate in ZBNF only when he/she has satisfactorily undergone the prescribed course of study for a period of not less than six months and pass examinations in all papers.

4. EXAMINATIONS:

The examinations shall be three hours duration to each paper at the end of the course. The candidate failing in any subject (s) will be permitted to appear for each failed subject (s) in the subsequent examinations.

SCHEME OF EXAMINATIONS:

The scheme of the Examinations shall be follows:

S.NO	PAPER CODE	TITLE OF THE PAPER	DURATION	MAX. MARKS
1.	PAPER – I	Jivamrita/Jeevamrutha	3	100
2.	PAPER – II	Bijamrita/Beejamrutha	3	100
3.	PAPER – III	Acchadana – Mulching	3	100
4.	PAPER – IV	Whapasa - moisture	3	100
3	Practical -I	Jeevamrutha & Beejamrutha	3	50
4	Practical -II	Mulching & moisture	3	50

TOTAL MARKS: 500 Marks

Grading System:

Grading system will be followed for the evaluation on a ten-point scale. The details of the grading system are given in the following Table.

Percentage Equivalence of Grade:

Range of % of Marks	Grade Letter	Performance	Grade Point
95 - ≤ 100	O	Outstanding	10
85 - < 95	A plus	Excellent	9
75 - < 85	A only	Very Good	8
65 - < 75	B plus	Good	7
55 - < 65	B only	Above Average	6
45 - < 55	C	Average	5
40 - < 45	P	Pass	4
< 40	F	Fail	0
Absent	Ab	Absent	0

'P' grade is required for a minimum pass in a course. The minimum GPA required for a pass in the Diploma programme is 4. Calculation of Grade Point Average (GPA) :

Credit Points for the Course = (No. of Credits assigned for the course x Grade Point secured for that course).

GPA indicates the performance of a student in the programme. GPA is based on the total credit points earned by a student in all the courses divided by the total number of credits assigned to the courses required in the programme.

Note: GPA is computed only if the candidate passes in all the required courses (gets a minimum required grade for a pass in all the required courses as per the curriculum).

GPA = Total credit points earned by the student from all the required courses of the programme
Total credits of all courses required in the programme This formula shall be printed on the

Grade Card issued to the student with a note that it could be used to convert the grades into mark-percentages. (The details of the grading system as indicated above shall also be printed on the Grade Card). Conversion of GPA to Grade

GPA	Grade
10	O
9.0 - < 10	A plus
8.0 - < 9	A only
7.0 - < 8	B plus
6.0 - < 7	B only
5.0 - < 6	C
4.0 - < 5	P
< 4	F
Absent	Ab

Conversion of GPA to percentage: Equivalent Percentage = (GPA obtained) X 10

QUESTION PAPER PATTERN:

TIME: 3 hours

Max. marks: 100

SECTION - A: 5 X 5=25

Answers all questions

Two questions from each unit with Choice

SECTION – B: 5 X 15=75

Answer all questions

Two questions from each unit with Choice

5. Requirement of the laboratory support and library resources:

The library and infrastructure support of the Department of Botany will be extended to the learners as per the requirement. College Library was established in 1965. The College Library which is situated in the main campus occupies purpose-built accommodation, and provides a variety of facilities and has a user-friendly environment. These include individual work spaces, room for group study and teaching, audio-visual access and online information retrieval system.

CERTIFICATE COURSE IN MS-EXCEL

- Objective of this course : By the end of the course students will be able to
- To use MS-Excel
- Analyze the data using MS-Excel
- To assist in field based results.
- The Certificate holder will acquire the required skills over a period of time. The teaching will be divided into 80% practical component and 20% theory component. Mentors should note that the Certificate programme is to lay full stress on practical aspects as reflected in the ratio mentioned above. *The primary purpose of the programme is to enable the students to focus on a particular skill set of working with MS-Excel which would lead to a vocation or employment.*

SYLLABUS

UNIT-I: Introduction to MS-Excel

15Hours

Introducing Microsoft Excel: Starting Excel, Worksheets and Workbook, Understanding the User Interface, Quick Access Toolbar, Formula Bar, Worksheet Area, Status Bar, Creating New Excel Workbook, saving excel workbook and Opening Existing Excel Workbook. Entering and formatting data, Organizing Data in Excel Tables, Inserting Cut or Copied Cells. Creating Excel formulas and functions.

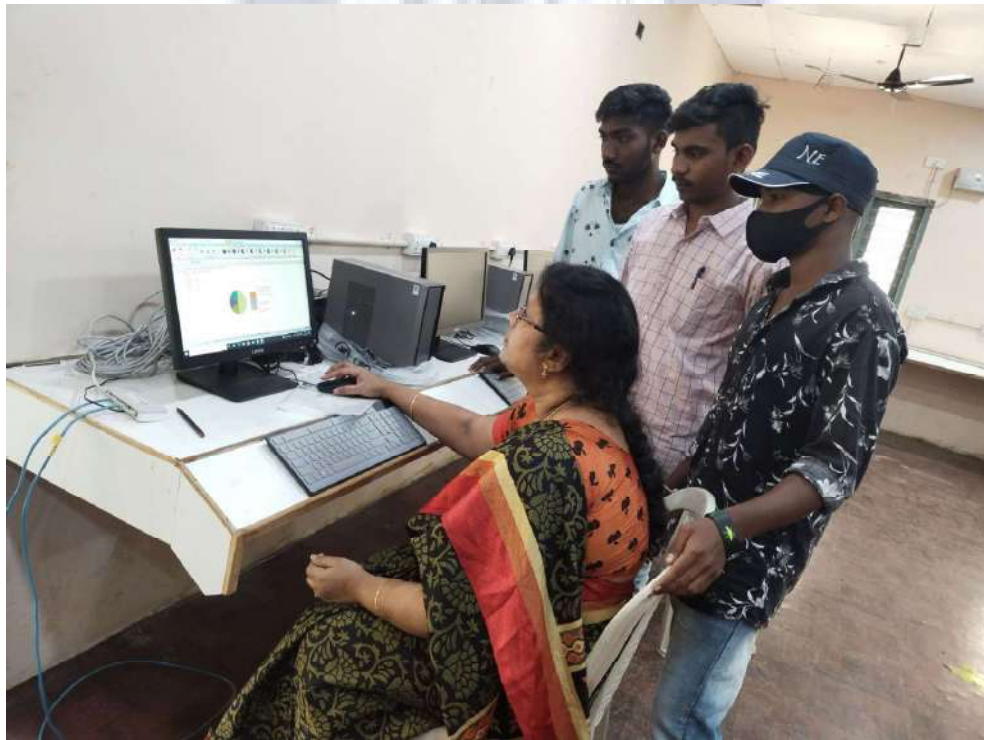

UNIT-II: Managing Data with MS-Excel

15Hours

Sorting and Filtering Worksheet Data. Data Analysis Using Spread Sheets: Data Analysis Pak in Excel, Descriptive Statistics, T-Test, ANOVA, Correlation and Regression, Random number Generation From Different Distributions, Binomial, Poisson, Uniform and Normal Distributions. Diagrammatic presentation of data and Graphical presentation of data.

This certificate course was organized by the Department of Statistics, aiming at introducing the basic functions of MS- Excel and its applications in accounting, data analysis and research. The course was conducted from 4.10.2021 to 31.10.202. Launched by the Principal, Dr.B.Sujatha, the course went on well. Dr. G. VARalakshmi, HOD, Statistics acted as the course coordinator, and Sri K.Yedukondalu JKC FTM worked as faculty

The course proved fruitful in generating interest among the students to work with MS-excel and utilize the knowledge gained in their core subjects.

Dr. G. Varalakshmi, explaining some of the concepts

DEPARTMENT OF ZOOLOGY

CERTIFICATE COURSE IN ENVIRONMENTAL SUSTAINABILITY CONCEPT:

Our college has large number of students entering for graduation in Science after their Intermediate I,e 10+2 classes. In spite of their good academic record students have virtually stopped studying after the month of April. during course of time students if complete the certificate course, they will be benefited by getting good jobs in life science sector.

AIMS AND OBJECTIVES OF CERTIFICATE COURSE:

The certificate course is aimed to act as a buffer for the life sciences students who were unknown to Zoology subject, with objective to provide adequate time and basic knowledge about ecology, environment and other information regarding sustainability. This gives them knowledge about environmental sustainability. During this interaction with the faculty and their classmates, the students will equipped with the knowledge and the confidence needed to take on bigger challenges of carrier.

Duration of Certificate Course in Zoology : 4Weeks

Environmental sustainability is the responsibility to conserve natural resources and protect global ecosystems to support health and wellbeing, now and in the future.

According to the United Nations (UN) World Commission on Environment and Development, environmental sustainability is about acting in a way that ensures future generations have the natural resources available to live an equal, if not better, way of life as current generations.¹

While it may not be universally accepted, the UN's definition is pretty standard and has been expanded over the years to include perspectives on human needs and well-being, including non-economic variables, such as education and health, clean air and water, and the protection of natural beauty.

Syllabus

Week 1

1. Factors affecting environment and society-1
2. Factors affecting environment and society-2
3. Our Common Future
4. Introduction to Terms of Significance -1
5. Introduction to Terms of Significance -2

Week 2

1. Trade & Environment- Concepts, issues and recent developments- part 1
2. Trade & Environment, Part2- The Doha Round
3. Legal Edifice of Environmental Protection
4. Environmental Impact Assessment Norms and their application in India
5. The Wild Life Protection Act, 1972
6. Environmental Law and Coastal Regulation Zones

Week 3

1. The Case of Western Ghats- The Gadgil Report
2. The Kasturirangan Report
3. The Forest Conservation Act, 1980
4. The Water Act
5. The Air –Prevention & Control of Pollution Act, 1981
6. Seminal Cases in Environmental Protection
7. The Environment Protection Act, 1986

Week 4

1. Environmental Friendly Technologies- Concept and Need
2. A Consumer Behaviour perspective to Environmental Sustainability
3. Managing our environment for sustainability- Solar Energy part 1
4. Managing our environment for sustainability, Solar Energy part 2
5. Managing our environment for sustainability, Wind Energy
6. Managing our environment for sustainability- Geothermal, Hydro and Tidal Energy
7. Sustainable Development and Environment friendly practices

DEPARTMENT OF ZOOLOGY

QUESTION PAPER FOR CERTIFICATE COURSE in

ENVIRONMENTAL SUSTAINABILITY

TIME :2hrs

Max. Marks: 50

SECTION –A

Answer all

1×10 = 10

1.Structure of 'prokaryotic DNA' is called

A.Ribosome

B.Cytoplasm

C.Nucleoid

D.Plasma membrane

2.Which of the following is NOT an example of a eukaryotic cell?

A) Red blood cell

B) Bacteria

3) Cheek epithelial cell

D) Onion root cell

3.The 'powerhouse' of the cell that generates the cell's energy-rich ATP molecules is the:

A) mitochondrion

B) smooth ER

C) chloroplast

D) nucleus

4. What is the location of photosynthetic pigment in an oxygenic photosynthetic organism?

- a) Plasma membranes
- b) Thylakoid membranes
- c) Chromatophores
- d) Chlorosome

5. The term “Cloning” is related with

- (A) Environment
- (B) Trade
- (C) Genetics
- (D) Space technology

6. Ecology Means

7. What is solar energy

8. Write about sun.....

9. What is geothermal energy

10 what is hydropower

SECTION –B

Write any Four questions

$$5 \times 4 = 40$$

11. What is meant by Gadgil Report?

12. Write about Ecology and sustainability ?

13. What is forest act ?

14. Write about environment and society

15. Write about Environmental Laws ?

Sir,

Sub: PRR &VS GDC, VIDAVALURU-Certificate Course on Clinical tests by students-
permission required to lend support to students in analysis –visit by our students to our
centre-request –regd.

Iam glad to bring to your notice that the BSc Students of this college are willing to
take up a certificate course on clinical tests for this year. As your centre is doing the analysis
for clinical tests, I request your Cooperation and helping hand for our students also to have a
learning experience and inputs for the preparation of certificate course. I further request you
to allow our students to get benefitted from your centre.

Thanking you Sir

Yours faithfully

B. S—

**DEPARTMENT OF CHEMISTRY
CERTIFICATE COURSE**

**CLINICAL LABORATORY TESTS
2020-2021**

Syllabus

UNIT 1

- A. Lab ethics- Punctuality, Promptness, Accuracy, Confidentiality, Generosity, Sincerity, Standards, Major disciplines
- B. Safety Practices – Acids & Bases, Precautions, Carcinogenic Chemicals, Toxic & Harmful Chemicals, Oxidising Chemicals, Infectious Samples, Glass Ware, First aid.

UNIT -II

- A. Techniques- Flame photometer, Beer- Lamberts law, Galvanometer, Centrifugation, electrophoresis, Chromatography.
- B. Serological tests- Widal Slide Agglutination test, VDRL Slide test, ELISA Test, Antibiotic Sensitivity Test.

UNIT -III

Staining Techniques- Gram Staining, acid fast staining, Mycobacterium staining, Albert staining.

Sterilization:- Autoclave, Hot air oven, Incubator, Chemical sterilization.

Culture Media- Nutrient Agar medium, Blood Agar Medium, Chocolate agar Medium, McConkey Agar Medium, Czapeckdox Agar Medium, YEMA Medium.

UNIT IV:- Estimations

Estimation Of Serum of Plasma Proteins, blood Glucose, serum bilirubin, Serum creatinine, Serum alkaline Phosphatase, serum calcium

Haematological Tests:-

WBC Count, Platelet Count, Reticulocyte count, eosinophil Count, Differential Count, haemoglobin estimation, Erythrocyte Sedimentation rate, Bleed time & clotting time, packed cell volume.

UNIT-V

Clinical Pathological tests- physical Examination of urine, Detecting Albumin in urine, blood in urine, Ketone bodies & sugar in urine, Bile salts & Bile pigments in urine.

Mycotic infections- Wet Mounting in Alkaline solutions, subcutaneous mycoses, Systemic mycoses.

Parasitology- Blood collection from a Malaria patient Microscopic Examination of Stool.

DEPARTMENT OF CHEMISTRY

CERTIFICATE COURSE CLINICAL LABORATORY TESTS 2020-2021

COURSE END EXAMINATION

Multiple choice questions

1. Low effective Sterilization With

- a) Methyl Alcohol
- b) Chloroform
- c) 5% Phenol
- d) 5% Cresol
- e) ethyl alcohol 70%

2. The microscope which is used to investigate syphilis is

- a) Light Microscope
- b) dark field
- c) Ultra –Violet

3. one of these cells is the largest leukocyte cell

- a) Basophil
- b) Monocyte
- c) Lymphocyte
- d) Neutrophil
- e) Eosinophil

4. The malarial sporozoite in man invades

- a) RBCs
- b) White blood cells
- c) Reticulo endothelial cells
- d) All of the above

5. One Jaundice patient has yellow skin his billrubin is

- a)2.5Mg/dl
- b)5.0Mg/dl
- c)1.2Mg/dl

6. For Glucose tolerance test

- a)Collect 5 blood samples only
- b)Collect 5 Urin samples only
- c)Collect 5 blood samples+5 Urin Samples

7. Purine Associated with

- a)Adenine
- b)Uric acid
- c)RNA
- d)Guanine

8. The most source of ATP in cell is

- a)Cytoplasm
- b)Nucleus
- c)Cell wall
- d)Mito chondria

9. serious that causes food poisoning

- a) Staph albus
- b)salmonella enteritidis
- c)salmonella typhi

10. Streptococci responsible for the majority of human infections are

- a)Bacitracin-S and camp(-)
- b)GroupA
- c)Beta-haemolyt cocci
- b) All of these
- e)None of these

11. The trophozoite which contains red blood cells in the cytoplasm belongs to this parasite

- a) Entamoeba histolytica
- b) Entamoeba coli
- c) Entamoeba gingivalis
- d) Iodamoeba butschlii
- e) None of the above

12. The only enrichment medium of following is

- a) Blood agar
- b) Chocolate agar
- c) Selenite broth
- d) MacConkey agar
- e) Cystine lactose electrolyte Deficient (CLED)

13. The organs of adhesion in bacteria are

- a) Flagella
- b) Fimbriae
- c) Slim layer
- d) 130 days
- e) Microcapsule

14. Life span of red blood cell in the circulation (body)

- a) 80 days
- b) 120 days
- d) 7 days

15. What practical cardiolipin is applicable in laboratory work

- a) FTA
- b) RPR only
- c) VDRL only
- d) VDRL & RPR

16. A semen specimen, containing sugar source of the spermatozoan energy is

- a) Glucose
- b) Mannose
- c) Fructose
- d) Sucrose
- e) Galactose

17. To differentiate between *Neisseria gonorrhoea* and *Neisseria meningitidis*

- a) Fermentation of dextrose and lactose
- b) Fermentation of dextrose and maltose
- c) Fermentation of maltose and lactose
- d) Fermentation of maltose and sucrose

18. Significant bacteruria, puria and alkaline urine probably indicate urinary tract infection due to

- a) *Staphylococcus epidermidis*
- b) *E. coli*
- c) *Proteus vulgaris*
- d) *Pseudomonas aeruginosa*
- e) *Enterococcus faecalis*

19. Organism soluble in bile

- a) Staph
- b) Streptococci
- c) *Haemophilus influenzae*
- d) pneumococci (*Streptococcus pneumoniae*)

20. The following organisms are lactose fermenters except

- a) *E. coli*
- b) *Proteus* spp
- c) *Shigella sonnei*

సృజనాత్మక రచన (CREATIVE WRITING)

I. తెలుగులో సృజనాత్మక రచనలు - పరిశీలన

1. సృజనాత్మక వివరణ
2. సృజనాత్మకతలో భాషా వైవిధ్యం - పాఠాభివృద్ధి
3. సృజనాత్మకత సాహిత్య సృజనకు తోడ్పడుతుందా?
4. తెలుగులో సృజనాత్మక రచనల పరిశీలన

II. కథ

1. కథా వస్తుశిల్ప పరిచయం
2. కథన శిల్పం - జీవిత పరిశీలన
3. కథనశైలి శిల్పం - పరిసరాల పరిశీలన
4. కథా సంకలనాల్లో వస్తు శిల్ప వైవిధ్యం

III. కవిత్యం

1. కవిత్యం - వస్తు వైవిధ్యం
2. కవిత్యం - శిల్ప నిర్మాణం
3. కవిత్యం - ధ్వని, రసం
4. కవిత్యం - సామాజిక దృక్పథం

ఆధార గ్రంథాలు:

1. కథల బడి - బి.ఎస్. రాములు
2. కథల బడి 2 - బి.ఎస్. రాములు
3. వెయ్యేళ్ళ తెలుగు కవిత్యం - శైలి - శిల్పం - అట్లా వెంకట రామిరెడ్డి
4. పాపులర్ రచనలు చేయడం ఎలా - యండమూరి వీరేంద్ర నాథ్
5. మంచి రచనలు చేయడం ఎలా - యండమూరి వీరేంద్ర నాథ్
6. కవిత్యం కళా తత్వ శాస్త్ర కావ్యం - పి.వి. ముదిగొండ వీరబ్రహ్మయ్య
7. పోయిట్స్ వర్క్ షాప్ - ఏటుకూరి ప్రసాద్

Time Table

Every working Mon.Wed,Fri

9.00 am to 10.00 am

Every Working Tue,Thu,Sat

4.00pm to 5.00pm

DEPARTMENT OF ZOOLOGY

CERTIFICATE COURSE IN ENVIRONMENTAL SUSTAINABILITY CONCEPT:

Our college has large number of students entering for graduation in Science after their Intermediate I,e 10+2 classes. In spite of their good academic record students have virtually stopped studying after the month of April. during course of time students if complete the certificate course, they will be benefited by getting good jobs in life science sector.

AIMS AND OBJECTIVES OF CERTIFICATE COURSE:

The certificate course is aimed to act as a buffer for the life sciences students who were unknown to Zoology subject, with objective to provide adequate time and basic knowledge about ecology, environment and other information regarding sustainability. This gives them knowledge about environmental sustainability. During this interaction with the faculty and their classmates, the students will equipped with the knowledge and the confidence needed to take on bigger challenges of carrier.

Duration of Certificate Course in Zoology : 4Weeks

Environmental sustainability is the responsibility to conserve natural resources and protect global ecosystems to support health and wellbeing, now and in the future.

According to the United Nations (UN) World Commission on Environment and Development, environmental sustainability is about acting in a way that ensures future generations have the natural resources available to live an equal, if not better, way of life as current generations.¹

While it may not be universally accepted, the UN's definition is pretty standard and has been expanded over the years to include perspectives on human needs and well-being, including non-economic variables, such as education and health, clean air and water, and the protection of natural beauty.

Syllabus

Week 1

1. Factors affecting environment and society-1
2. Factors affecting environment and society-2
3. Our Common Future
4. Introduction to Terms of Significance -1
5. Introduction to Terms of Significance -2

Week 2

1. Trade & Environment- Concepts, issues and recent developments- part 1
2. Trade & Environment, Part2- The Doha Round
3. Legal Edifice of Environmental Protection
4. Environmental Impact Assessment Norms and their application in India
5. The Wild Life Protection Act, 1972
6. Environmental Law and Coastal Regulation Zones

Week 3

1. The Case of Western Ghats- The Gadgil Report
2. The Kasturirangan Report
3. The Forest Conservation Act, 1980
4. The Water Act
5. The Air –Prevention & Control of Pollution Act, 1981
6. Seminal Cases in Environmental Protection
7. The Environment Protection Act, 1986

Week 4

1. Environmental Friendly Technologies- Concept and Need
2. A Consumer Behaviour perspective to Environmental Sustainability
3. Managing our environment for sustainability- Solar Energy part 1
4. Managing our environment for sustainability, Solar Energy part 2
5. Managing our environment for sustainability, Wind Energy
6. Managing our environment for sustainability- Geothermal, Hydro and Tidal Energy
7. Sustainable Development and Environment friendly practices

DEPARTMENT OF ZOOLOGY

QUESTION PAPER FOR CERTIFICATE COURSE in

ENVIRONMENTAL SUSTAINABILITY

TIME :2hrs

Max. Marks: 50

SECTION –A

Answer all

1×10 = 10

1.Structure of 'prokaryotic DNA' is called

A.Ribosome

B.Cytoplasm

C.Nucleoid

D.Plasma membrane

2.Which of the following is NOT an example of a eukaryotic cell?

A) Red blood cell

B) Bacteria

3) Cheek epithelial cell

D) Onion root cell

3.The 'powerhouse' of the cell that generates the cell's energy-rich ATP molecules is the:

A) mitochondrion

B) smooth ER

C) chloroplast

D) nucleus

4. What is the location of photosynthetic pigment in an oxygenic photosynthetic organism?

- a) Plasma membranes
- b) Thylakoid membranes
- c) Chromatophores
- d) Chlorosome

5. The term “Cloning” is related with

- (A) Environment
- (B) Trade
- (C) Genetics
- (D) Space technology

6. Ecology Means

7. What is solar energy

8. Write about sun.....

9. What is geothermal energy

10 what is hydropower

SECTION –B

Write any Four questions

$$5 \times 4 = 40$$

11. What is meant by Gadgil Report?

12. Write about Ecology and sustainability ?

13. What is forest act ?

14. Write about environment and society

15. Write about Environmental Laws ?

CERTIFICATE COURSE IN MS-EXCEL

- Objective of this course : *By the end of the course students will be able to*
- *To use MS-Excel*
- *Analyze the data using MS-Excel*
- *To assist in field based results.*
- *The Certificate holder will acquire the required skills over a period of time. The teaching will be divided into a 80% practical component and 20% theory component. Mentors should note that the Certificate programme is to lay full stress on practical aspects as reflected in the ratio mentioned above. The primary purpose of the programme is to enable the students to focus on a particular set of*

workingIN Soft skills which should lead to a vocation or employment

SYLLABUS

UNIT-I: Introduction to MS-Excel

15Hours

Introducing Microsoft Excel: Starting Excel, Worksheets and Workbook, Understanding the User Interface, Quick Access Toolbar, Formula Bar, Worksheet Area, Status Bar, Creating New Excel Workbook, saving excel workbook and Opening Existing Excel Workbook. Entering and formatting data, Organizing Data in Excel Tables, Inserting Cut or Copied Cells. Creating Excel formulas and functions.

UNIT-II: Managing Data with MS-Excel

15Hours

Sorting and Filtering Worksheet Data. Data Analysis Using Spread Sheets: Data Analysis Pak in Excel, Descriptive Statistics, T-Test, ANOVA, Correlation and Regression, Random number Generation From Different Distributions, Binomial, Poisson, Uniform and Normal Distributions. Diagrammatic presentation of data and Graphical presentation of data.

Dear Sir

I Express My Sincere thanks to the Management of Janatha Diagnostic, Gudur for providing opportunity to our students to learn clinical Laboratory tests. I enclose the list of students participating in training. Kindly allow our students to learn the following tests from your lab.
Authorities / Technicians.

- Full Blood count profile
- Kidney Test-Renal Profile
- Liver function Test
- Cholesterol test-Lipid profile test
- Blood Glucose Test
- Urine Test

Your kind help will be remembered for ever.

Thanking you

with best regards

Sir,

Sub: PRR &VS GDC, VIDAVALURU-Certificate Course on Clinical tests by students-
permission required to lend support to students in analysis –visit by our students to our
centre-request –regd.

Iam glad to bring to your notice that the BSc Students of this college are willing to
take up a certificate course on clinical tests for this year. As your centre is doing the analysis
for clinical tests, I request your Cooperation and helping hand for our students also to have a
learning experience and inputs for the preparation of certificate course. I further request you
to allow our students to get benefitted from your centre.

Thanking you Sir

Yours faithfully

**DEPARTMENT OF CHEMISTRY
CERTIFICATE COURSE**

**CLINICAL LABORATORY TESTS
2020-2021(on words)**

Syllabus

UNIT 1

- A. Lab ethics- Punctuality, Promptness, Accuracy, Confidentiality, Generosity, Sincerity, Standards, Major disciplines
- B. Safety Practices – Acids & Bases, Precautions, Carcinogenic Chemicals, Toxic & Harmful Chemicals, Oxidising Chemicals, Infectious Samples, Glass Ware, First aid.

UNIT -II

- A. Techniques- Flame photometer, Beer- Lamberts law, Galvanometer, Centrifugation, electrophoresis, Chromatography.
- B. Serological tests- Widal Slide Agglutination test, VDRL Slide test, ELISA Test, Antibiotic Sensitivity Test.

UNIT -III

Staining Techniques- Gram Staining, acid fast staining, Mycobacterium staining, Albert staining.

Sterilization:- Autoclave, Hot air oven, Incubator, Chemical sterilization.

Culture Media- Nutrient Agar medium, Blood Agar Medium, Chocolate agar Medium, McConkey Agar Medium, Czapeckdox Agar Medium, YEMA Medium.

UNIT IV:- Estimations

Estimation Of Serum of Plasma Proteins, blood Glucose, serum bilirubin, Serum creatinine, Serum alkaline Phosphatase, serum calcium

Haematological Tests:-

WBC Count, Platelet Count, Reticulocyte count, eosinophil Count, Differential Count, haemoglobin estimation, Erythrocyte Sedimentation rate, Bleed time & clotting time, packed cell volume.

UNIT-V

Clinical Pathological tests- physical Examination of urine, Detecting Albumin in urine, blood in urine, Ketone bodies & sugar in urine, Bile salts & Bile pigments in urine.

Mycotic infections- Wet Mounting in Alkaline solutions, subcutaneous mycoses, Systemic mycoses.

Parasitology- Blood collection from a Malaria patient Microscopic Examination of Stool.

DEPARTMENT OF CHEMISTRY

CERTIFICATE COURSE CLINICAL LABORATORY TESTS 2021-2022

COURSE END EXAMINATION

Multiple choice questions

1. Purine Associated with

- a) Adenine
- b) Uric acid
- c) RNA
- d) Guanine

2. One Jaundice patient has yellow skin his bilirubin is

- a) 2.5Mg/dl
- b) 5.0Mg/dl
- c) 1.2Mg/d
- d) 1.6Mg/d

3. Low effective Sterilization With

- a) Methyl Alcohol
- b) Chloroform
- c) 5% Phenol
- d) 5% Cresol
- e) ethyl alcohol 70%

4. The microscope which used in investigate syphilis is

- a) Light Microscope
- b) dark field
- c) Ultra -Violet

5. one of these cell the the largest leukocyte cell

- a) Basophil
- b) Monocyte
- c) Lymphocyte

d)Neutrophil

e)Eosinophil

6.The malarial sporozoite in man invades

a)RBCS

b) White blood cells

c)Reticulo endothelial cells

d)All of the above

7. For Glucose tolerance test

- a) Collect 5 blood samples only
- b) Collect 5 Urin samples only
- c) Collect 5 blood samples+5 Urin Samples

8. The most source of ATP in cell

- a) Cytoplasm
- b) Nucleus
- c) Cell wall
- d) Mitochondria

9. Streptococci responsible for the majority of human infections are

- a) Bacitracin-S and CAMP(-)
- b) Group A
- c) Beta-haemolyticocci
- b) All of these
- e) None of these

10. Serious that causes food poisoning

- a) Staph albus
- b) salmonella enteritidis
- c) salmonella typhi

11. The trophozoite which contains red blood cells in the cytoplasm belongs to this parasite

- a) Entamoeba histolytica
- b) Entamoeba coli
- c) Entamoeba gingivalis
- d) Iodamoeba butschlii
- e) None of the above

12. The only enrichment medium of following is

- a) Blood agar
- b) Chocolate agar
- c) Selenite broth
- d) MacConkey agar
- e) Cystine lactose electrolyte Deficient (CLED)

13. The organs of adhesion in bacteria are

- a) Flagella
- b) Fimbriae
- c) Slimlayer
- d) 130 days
- e) Microcapsule

14. Life span of red blood cell in the circulation (body)

- a) 80 days
- b) 120 days
- d) 7 days

15. What practical cardiolipin is applicable in laboratory work

- a) FTA
- b) RPR only
- c) VDRL only
- d) VDRL & RPR

16. A semen specimen, containing sugar source of the spermatozoan energy is

- a) Glucose
- b) Mannose
- c) Fructose
- d) Sucrose
- e) Galactose

17. To differentiate between *Neisseria gonorrhoea* and *Neisseria meningitidis*

- a) Fermentation of dextrose and lactose
- b) Fermentation of dextrose and maltose
- c) Fermentation of maltose and lactose
- d) Fermentation of maltose and sucrose

18. Significant bacteruria, puria and alkaline urine probably indicate urinary tract infection due to

- a) *Staphylococcus epidermidis*
- b) *E. coli*
- c) *Proteus vulgaris*
- d) *Pseudomonas aeruginosa*
- e) *Enterococcus faecalis*

19. Organism soluble in bile

- a) Staph
- b) Streptococci
- c) *Haemophilus influenzae*
- d) pneumococci (*Streptococcus pneumoniae*)

20. The following organisms are lactose fermenters except

- a) *E. coli*
- b) *Proteus* spp
- c) *Shigella sonnei*

CERTIFICATE COURSE IN **MS-EXCEL**

- Objective of this course : By the end of the course students will be able to
- To use MS-Excel
- Analyze the data using MS-Excel
- To assist in field based results.
- The Certificate holder will acquire the required skills over a period of time. The teaching will be divided into a 80% practical component and 20% theory component. Mentors should note that the Certificate programme is to lay full stress on practical aspects as reflected in the ratio mentioned above. The primary purpose of the programme is to enable the students to focus on a particular set of workingIN Soft skills which should lead to a vocation or employment

SYLLABUS

UNIT-I: Introduction to MS-Excel

15Hours

Introducing Microsoft Excel: Starting Excel, Worksheets and Workbook, Understanding the User Interface, Quick Access Toolbar, Formula Bar, Worksheet Area, Status Bar, Creating New Excel Workbook, saving excel workbook and Opening Existing Excel Workbook. Entering and formatting data, Organizing Data in Excel Tables, Inserting Cut or Copied Cells. Creating Excel formulas and functions.

UNIT-II: Managing Data with MS-Excel

15Hours

Sorting and Filtering Worksheet Data. Data Analysis Using Spread Sheets: Data Analysis Pak in Excel, Descriptive Statistics, T-Test, ANOVA, Correlation and Regression, Random number Generation From Different Distributions, Binomial, Poisson, Uniform and Normal Distributions. Diagrammatic

presentation of data and Graphical presentation of data.

The Course Of “**COURSE FOR STUDENTS IN MS-EXCEL**” is an effort to develop soft skills in an individual which would not only help one generate excel sheet forms but also would provide a guiding a skilled person to work in excel charts

This certificate course was organised by **Department of statistics**. This course has of 30 days duration period conducted from 3/3//2022 to 22.04.2022 between 4 to 5 pm. It was launched by college principal Dr. B.Sujaatha garu.

This course is an effort to develop soft skills in individuals.

Certificate Course on TALLY

In Collaboration with APSSDC, a certificate course on Tally course was conducted in our college from 12th September. This course duration was 45 days. The APSSDC members acted as resource persons for the entire course-theory and as well as practical sessions. The entire course was monitored by the faculty of the Department of commerce. Theory classes were conducted from 09:00 AM to 01:00 AM and practical sessions in the evening after class work.

We have given opportunity to all the students of our college and also given chance to them. This course is very useful for students employment.

In Collaboration with APSSDC, a certificate course on Tally course was conducted in our college from 12th September. This course duration was 45 days. The APSSDC mentors acted as resources persons for the entire course -theory and as well as practical sessions. The entire course was monitored by the faculty of the Department of commerce. Theory classes were conducted from 09:00 AM to 10:00 AM and practical sessions in the evening after class work. We have given opportunity to all the students of our college and also given chance alumni. This course is very useful for students employment
