- b. List of participants**
- c. List of organizing members**
- d. Paper presented**

Concept Note:

The objective of this seminar is to create an awareness regarding the medicinal plants available in SPSR Nellore district and their uses. The students will know the bright prospectus of carrier in the field of medicinal plants, their cultivation, crude drugs, marketing strategies, Phyto-Chemistry and quality initiative for promotion of medicinal Plants.

Inaugural ceremony:

The inaugural session of the seminar started at 10:30 am and continued till 11:30am. It was started with lightning of the lamp by Sri A. V. Ramana Rao Principal and a prayer song by Final year BZC students. At the beginning of the inaugural session of the seminar, Sri M. John Paul, Lecturer in Botany, the seminar convener introduced the theme and relevance of the seminar. While welcoming the dignitaries and participants of the seminar, Sri. Vijay Mahesh, Librarian deliberated on the role of medicinal plants. In his keynote address, the Chief Guest Sri. A. V. Ramana Rao, Principal emphasised the role of Medicinal plants in human life expectancy. Dr. D. Sujatha, Vice principal, discussed on the pivotal role of this type of seminars and motivated participants and students to make the best use of this excellent opportunity to grasp the knowledge. Sri Bala Koteswara Rao proposed a vote of the thanks to the gathering.

Technical session - I:

Dr. I. S. Chakrapani addressed the gathering on the issues of medicinal plants and their use in Ayurveda, Siddha, Unani and homeopathy. He emphasised the need of cultivation of medicinal plants to supply the crude drugs for market specifications. His lecture was very informative for students that provided root causes issues regarding the unauthorised exploitation of these medicinal plants.

Smt. K. Audiseshamma garu, Senior Lecturer in Botany described about the medicinal plants and their uses available in the campus. She described that Medicinal plants are useful to keep on hand to treat common ailments. We can reach for certain medical plants to relieve headaches, tummy trouble and even irritation from bug bites. Plants can be consumed in teas, used as garnish, applied topically as essential oil or consumed as a pill. It's important to remember that you should always double check with your doctor before consuming or using anything new for your body. If you choose to grow some of these plants, remember to take proper care according to the plant's care guidelines and refrain from using any pesticides or

other harmful chemicals on your plants. We don't want any of those chemicals in or on your body. To help us, she described top medicinal plants, their notable health benefits and how to use them.

Lunch:

The lunch was enjoyed by all delegates, faculty, farmers and students.

Technical session - II

The post-lunch technical session i.e., Technical Session-II started at 2:00 pm and continued till 4:30 pm.

In this session, Dr. Reddi Rani, Head of the Department, Chemistry described the techniques involved in the extraction and phytochemical analysis. In her discussion she stressed the importance of medicinal plant in drug development is known to us and humans have used them for different diseases from the beginning of human history. She described about Traditional folk treatment from wild plants has always guided researchers to search for novel medications to develop healthy life for humans and animals. She also stated that some medicinal plants are still obscured within the plant which need to be scientifically evaluated. She also described that now a days we can analyse the phytochemical like alkaloids, cardiac glycosides, flavonoids, glycosides, phenols, resins, saponins, steroids, tannins, terpenoids and triterpenoids and quantitative phytochemical analysis for alkaloids, total phenolics, total flavonoids, tannins, saponins and ascorbic acid were made by using standard procedures.

Sri. John Paul M described the importance of HYDROPONICS CULTURE of Medicinal plants which help us in the commercial production of crude drugs in an organic way.

Dr. Sriram, Head of the department, English described about some medicinal plants mentioned in ancient English poetry.

Smt Sridevi garu, Head of the department described about the medicinal plants mentioned in Vedas, Upanishads including sanjeevini.

Dr. A. Venkata Prasad, Head of the Department, Economics explained about the cultivation of medicinal plants and market strategies of these medicinal plants. He described about the need for self-reliance by developing countries in the prevailing global economic recession as it affects research and development, production, procurement, distribution and consumption of pharmaceuticals. He also described about the hard-economic realities and the widening

economic parity between the high- and low-income countries have made the later solely dependent on the former for almost all of their pharmaceutical needs. He stated that, as a result, most, if not all of the developing countries import their medicines from their developed counter-parts, mostly at prohibitive prices and in most cases without regard to the endemic disease conditions associated with such developing countries. He stated that global statistics has revealed the continued growing economic importance of medicinal plants and plant-based pharmaceuticals which developing countries can harness to improve their pharmaceutical supplies that can impact positively on their healthcare delivery system. He described that most of these medicinal plants are abundantly indigenous in these developing countries that export them at very cheap rates to developed countries only to import pharmaceuticals made from them at very exorbitant prices that most often affect their foreign exchange.

Sri, Vasudeva Rao, Head of the department, computer sciences, described the usage of computers and their role in the pharmaceutical industries. He advised the students learning computer knowledge will provide employment opportunities in the field of pharmaceuticals.

Sri. Surendra, Head of the Department, Commerce described about the market strategies in relation to the import and export of crude drugs extracted from these medicinal plants.

Various participants presented their papers in relation to the medicinal plants.

Valedictory:

The University Level Seminar on “Medicinal flora of Nellore district” organized by Department of Botany was concluded with a grand valedictory. The valedictory session started at 5:00pm at the seminar hall in the presence of Sri. A. V. Ramana Rao Principal and he gave the Validatory speech and said thanks to all dignitaries at stage. Finally, certificates were distributed to all participants and paper presenters at registration table.

At the end on behalf of whole Institute, Sri John Paul M, Head of the Department, Botany proposed the vote of thanks to all speakers, guests, participants, faculty colleagues, staffs and students for their active participation in the seminar and making the programme a success.

ఔషధ మొక్కలతో ఆరోగ్యం పదిలం

విడవలూరు, న్యూస్టుడే: ఔషధ మొక్కలు మానవాళికి ఎంతో మేలుచేస్తాయని, వాటితో ఆరోగ్యం చేకూరుతుందని వృక్షశాస్త్ర అధ్యాపకుడు ఎం.జాన్ పాల్ పేర్కొన్నారు. విడవలూరులోని ప్రభుత్వ డిగ్రీ కళాశాలలో శనివారం జరిగిన సదస్సులో ఆయన మాట్లాడుతూ మన పరిసర ప్రాంతాల్లో లభించే తులసి, నేల ఉసిరి, కలబంద, గుంటకలగర, ఉత్తరేణి తదితర మొక్కల్లో ఔషధ గుణాలు పుష్కలంగా ఉంటాయన్నారు. ఇన్ ఛార్జి ప్రెన్సిపల్ చక్రపాణి మాట్లాడి ఆయుర్వేదానికి ఆధ్యుడైన భరద్వాజ మహర్షి చరిత్రను విద్యార్థులకు వివరించారు. ఈ కార్యక్రమంలో అధ్యాపకులు మహేష్, ఆదిలక్ష్మి, ఉదయగిరి జూనియర్ కళాశాల అధ్యాపకులు, విద్యార్థులు పాల్గొన్నారు.

మాట్లాడుతున్న వృక్షశాస్త్ర అధ్యాపకుడు జాన్ పాల్

National Workshop on Foldscope as Research Tool

organized by

DEPARTMENT OF ZOOLOGY

PRR & VS GOVERNMENT COLLEGE

VIDAVALURU

25th February 2020

sponsored by

DEPARTMENT OF BIOTECHNOLOGY
Ministry of Science & Technology
Government of India

Report of the

National Workshop on Foldscope as Research & Educational Tool

organized by
Dept. of Zoology, PRR & VS Govt. College, Vidavaluru

sponsored by
Department of Biotechnology, govt. of India, New Delhi
25.02.2020

The Dept. of Zoology organized a one day national workshop on “Foldscope as Research & Educational Tool” on 25th February 2021. This event was sponsored by the Department of Biotechnology, Govt. of India, New Delhi.

The event was attended by Sri Madamanchi Pradeep, Head, Center for Applied Sciences, Govt. Degree College for Men, Srikakulam as the lead speaker.

Students invited the guests on to the dias. Prayer was performed by students. The program started with the initial remarks of the principal Sri A.V.Ramana Rao. He emphasized that low-cost tools are very much required for encouraging the study of core sciences and also for promoting scientific temper among the young generations. 70 students are participated

Dr.I.S.Chakrapani, Organizing Secretary briefed about the programme.

Dr.D.Sujatha, HOD, Dept. of Zoology spoke about the need for research at undergraduate level. She said that tools like foldscope will be highly useful.

Then, Dr. Pradeep took the session. He explained in detail, the assembly of foldscope and its utility in research in the area of basic sciences. He demonstrated the assembly and used it for taking microphotographs. Students were spell bound.

Then foldscopes were distributed to student groups. Dr.Pradeep made them work with the assembly and take photographs of the miniature structures studied with the help of mobile. Students enjoyed a lot and learnt much.

At the end of the workshop, Sri M.Johnpaul, HOD, Botany presented vote of thanks. The programme came to an end with the National Anthem.

Dr.M.PRadeep, Sri A.V.Ramana Rao and Dr.I.S.Chakrapani on the dias

1. INTERNATIONAL YOGA DAY – 21ST June 2019

The International Day of Yoga is celebrated annually on June 21 to raise global awareness about the benefits of the ancient Indian practice. It comes with a different theme every year. This year, it is on climate change. Yoga is an ancient art that keeps your mind, body and soul in peace. While performing yoga during 5th International Yoga day, Prime Minister Narendra Modi, said "yoga is above everything, as he performed various asana with around 40,000 enthusiasts at the Prabhat Tara ground here to mark the fifth International Day of Yoga. The theme for 5th International Yoga Day is "Climate Action". There is a two day celebration of Yoga Day at the United Nation in which there is session called "Yoga with Gurus" followed by a panel discussion on the chosen theme for the Yoga Day

Dr. A. V. Prasad, Programme Officer, NSS delivering awareness on the occasion of YOGA Day

The Fifth International YOGA day was observed in our college on 21st June 2019 by the NSS Unit. Principal, Staff Members and Students were attended and given motivational Speeches on YOGA and they were practiced few Yoga poses.

Date of the Activity Conducted	04-Feb-2022
Aim	To Create awareness of the Cancer
Principal	Dr.Sujatha
Speakers on this occasion	<ul style="list-style-type: none"> ▪ Dr.Sujatha ,Principal ▪ Dr.N.Madhu , Vice- Principal ▪ K.Ravichandra Reddy ,Lect.in Botany ▪ R.Shanmugam, Lect.in Zoology ▪ Students
Number of Faculty Participated	7
Number of Students Participated	35
Activity Organized by	Department of Botany & Zoology
Description of the Programme	World Cancer Day is marked on the 4th of February every year and is organized by the Union for International Cancer Control (UICC) to create awareness.

Nearly 1.1 million, cases are reported yearly; therefore it is significant to step up cancer knowledge and information amongst the population. The use of tobacco accounts for 14 types of cancer in the body; others are alcohol, drugs, and poor diet. Two-thirds of cancer cases are detected at an advanced stage, decreasing patient's chances of survival.

On 4 th Feb- 2022, Department of Botany and Zoology organised **“WORLD CANCER DAY”** in a grand manner. College Principal Dr. B.Sujatha, Vice Principal Dr.N.Madhu , faculty members and Students participated in this event.
