**STUDENT SEMINARS REPORT**

**2022-23**

Student seminars are one of the methods adopted to involve students in the teaching-learning process. This is a student centric method, in which each student is assigned a topic of their choice from the core syllabus. Each student has to present the assigned topic in 5 minutes, in addition to submission of handout. This talk is peer-reviewed, and teachers also evaluate this, as part of internal assessment.
